

## MIELE ENHANCES DUAL FUEL AND GAS RANGES FOR ULTIMATE CULINARY EXPERIENCE

### *Features New Burners and Wireless Precision Probe for Optimal Reading and Temperature Control While Cooking*

**Princeton, NJ** – Miele, the largest family-owned luxury appliance manufacturer, has announced the launch of its newly enhanced Dual Fuel and Gas Ranges, including the new Wireless Precision Probe and burner functions.

The new Wireless Precision Probe, which provides correct-to-the-minute information on the cooking process, now has four measuring points instead of only one. The probe can be inserted in any way and it will accurately read, making it easy to use and control the internal temperature, even with thin cut meat like steak or fish. Miele's Wireless

Precision Probe, guarantees perfect results every time! The new Wireless Precision Probe will be a new feature on all Dual Fuel and Induction ranges, as well as Miele's ContourLine and PureLine M Touch Convection Ovens.

Adding to the culinary experience, Miele has also updated its burners with a BTU output change to reduce the head rise under the hood and overcome gaps for the hood opening, eliminating the need for a “zero gap kit” on its 36-inch and 48-inch dual fuel and gas Ranges and Rangetops.

“As a leader in cutting-edge technology, creating the ultimate culinary experience is paramount for Miele,” said Dirk Sappok, Director of Product Development at Miele. “That is why we are constantly innovating and have enhanced our ranges to include the new Wireless Precision Probe and updated burners.”

#### ***Miele's Ultimate Culinary Experience with Dual Fuel Ranges***

Miele's Dual Fuel ranges provide the ultimate culinary experience with its dual stacked burner system with TrueSimmer, which provides a continuous simmer for perfect temperatures, and Miele's signature **MasterChef** and **MasterChef Plus** automatic programs, which guide users through over 100 easy-to-use programs for items such as baked goods, pizza, turkey, fish and much more. The MasterChef and MasterChef Plus programs provide menu options that guide the user step-by-step to the desired oven mode and temperature to create the perfect dish.

Other exclusive features in the electric oven of Miele's Dual Fuel ranges include **Moisture Plus** and **TwinPower Convection**. **MoisturePlus** increases the humidity by releasing up to three bursts of steam in the oven to optimize the cooking of a variety of foods such as: soft, delicious-smelling bread with a shiny, appetizing crust; bread rolls and croissants as if from the local baker; succulent, tender meat with a nicely browned crust, perfect oven bakes, delicious soufflés and so much more.

**TwinPower Convection** fans allow the oven to reach the desired temperature very quickly with rapid heat-up and optimum hot air distribution.

Miele Dual Fuel ranges also include **M Touch controls** and precision backlit knobs, **ComfortSwivel** handle, 19 operating modes including self-clean, **ComfortClean** dishwasher-safe grates, and soft close and soft open. To avoid a glare on the control panel, the **ComfortLift** panel on the Dual Fuel M

Touch Ranges can be raised up to 45° making it easy to view from above. Miele's 48" model also features a fully functional **M Touch Speed Oven** (Miele's unique 3-in1 Convection Microwave Oven offering a combination mode with convection and microwave, fully functioning microwave or fully functioning convection oven) and fully functional **Warming Drawer**. Adding to the versatile aspect of the 36" and 48" Miele ranges and rangetops, each can be customized with all burners or a mix of burners and a grill or griddle option.

In addition to Dual Fuel, Miele offers Ranges in Induction, All Gas, and Electric varying in sizes from 30-inches to 48-inches.

The new dual fuel ranges and all gas range and rangetops will be available at Miele retailers nationwide in spring 2019. Pricing for Miele's ranges and rangetops include: Dual Fuel Ranges from \$7,649 - \$15,149; All Gas Ranges from \$7,099 - \$7,599; Rangetops from \$4,399 - \$5,599; and an Induction Range for \$8,049. Miele's ContourLine and PureLine Convection Ovens are available from \$6,299 - \$8,999. Visit [MieleUSA.com](http://MieleUSA.com) for more information.
